

UnicastRemoteObject

server.remote.IRemote

server.remote.Remote

```
classDiagram
    class UnicastRemoteObject
    class server_remote_IRemote["server.remote.IRemote"]
    class server_remote_Remote["server.remote.Remote"]
    UnicastRemoteObject <|-- server_remote_IRemote
    UnicastRemoteObject <|-- server_remote_Remote
```

The diagram illustrates a class hierarchy. At the top level, there are two boxes: 'UnicastRemoteObject' on the left and 'server.remote.IRemote' on the right. Below these, centered, is a box labeled 'server.remote.Remote'. A horizontal line connects the bottom of the 'UnicastRemoteObject' box to the bottom of the 'server.remote.IRemote' box. From the center of this horizontal line, a vertical line extends downwards to the top of the 'server.remote.Remote' box. From the top of the 'server.remote.Remote' box, two arrows point upwards: one to the bottom of the 'UnicastRemoteObject' box and another to the bottom of the 'server.remote.IRemote' box, indicating that 'server.remote.Remote' inherits from both 'UnicastRemoteObject' and 'server.remote.IRemote'.
